PROJECTS

AlgoVisualizer

Frontend - HTML, TailwindCSS, JavaScript

A teaching app which helps students to visualize DSA concepts through animation with user friendly interface, progress tracking graph, AI Chat support and support of 24 different languages as well. Where I have played an important role in UI/UX development. This project made our team to secure 1st runner up position with the prize money of Rs.7000 in Genethon – 2024, A national level hackathon

DekhoNews

React.js, NewsAPI.org, REST API Integration

Developed a responsive web application that fetches and displays real-time news articles using the NewsAPI. Implemented category-based filtering for topics such as General, Business, Sports, and Science to enhance user experience. Utilized React components and state management for dynamic rendering and seamless navigation across different news sections.

TECHNICAL SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript, React.js, Next.js, TailwindCSS
Backend Technologies: Node.js, Express.js
Database : MongoDB
Version Control : Git, GitHub
Spoken Language : Hindi, English

EDUCATION

Bachelor of Technology in Computer Science and Engineering
With specialization in A.I. and Machine Learning — **Jabalpur, Madhya Pradesh, India**
Gyan Ganga Institute of Technology and Sciences — *CGPA : 7.81, 2024 - 2028*

Yash Nursery Higher Secondary School — **Jabalpur, Madhya Pradesh, India**
12th, MPBSE — *Percentage : 93.2%, 2023 - 2024*

Yash Nursery Higher Secondary School — **Jabalpur, Madhya Pradesh, India**
10th, MPBSE — *Percentage : 87.4%, 2021 - 2022*

EXTRA-CURRICULAR

Vice President :

HackWithIndia – Gyan Ganga Institute Of Technology and Sciences

- Leading community initiatives, workshops, and coding events to foster technical growth among students.
